AROMATIC PROFILE:

A selection of Mackmyras 200-, 100- and 30-liters cask, chosen by artificial intelligence from both ex-bourbon, Swedish and American oak.

Let us present the world first whisky created by Artificial Intelligence used to augment and automate the most time-consuming process of whisky creation. The distillery's machine learning models, powered by Microsoft's Azure cloud platform and AI cognitive services developed by Fourkind, are fed with Mackmyra's existing recipes (including those for award-winning blends), sales data, and customer preferences. With this dataset the AI can generate more than 70 million recipes that it predicts will be popular and of the highest quality. The result is Intelligens, an elegant Swedish single malt whisky with golden yellow color. A fruity whisky with notes of toffee, creamy vanilla, pear, apples, white pepper and a light tone of toasted oak casks.

NOSE

Toffee and creamy vanilla, fine oloroso tones and fruit with citrus, pear & apples. Herbal notes of aniseed, ginger and white pepper and a light tone of toasted oak casks.

TASTE

Vanilla with fine oak notes, fruits with citrus & pear, herbal species with slight tobacco leaves and a very small hint of smoke.

AFTERTASTE

Fruity and oaky, slightly salty and with a dryish end.
